

## Tournament Rules

1. Needing to have a natural trump to pick up or to order up. The left is not a trump card. If no trump is called after two rounds, the dealer will need to make it.
2. “No face, No Ace, No trump” will count as a dealt hand, so the same person will deal again.
3. Once the eight hands are completed, before moving please turn up one card for each player. This is so that when the winners move to the higher-number table, they will be playing with the person matching the high or low card (this will be determined before you move).

Each team will have a H = high card and L = low card. \*\* If a tie, the first team to get the winning hand will move. When moving, make sure you are playing with the person that matches your (High or Low). This is for both the winners and the losers. Note: You will be playing each game with different people as your partners.

4. If there is an extra person, that person will sit out. We will determine this at the afternoon of the event, as we will not let a 3-handed table happen. The person sitting out will get one Lone Hand (5) and 2 points given for this game (7 points for the game).
5. If a card is played and the person realizes that they have not followed the requested card (this is not a reneged play), they will have a chance to change their play before the next player plays their card in order.

If you have any questions or need answers, please feel free to ask!
